

I listen to Airl, a Christian music station that is a national and regional broadcaster with many local FM translators. Airl radio provides a great service to my area. It provides uplifting, family-friendly radio that many look forward to hearing. In a time where vulgar and inappropriate words and pictures fill our society, Airl is a breath of fresh air! Airl serves me personally because it gives me listening material that is positive and inspirational. I would be lost without a station like Airl! If Airl is replaced by LPFM broadcasters, a hugely positive type of radio experience will be deprived of MANY listeners. I cannot find a radio station that has the wonderfully unique qualities of Airl. I hope that stations like Airl will not be lost due to LPFM. Thank you.
